## 2012 Online Symposium on Religious Life

[www.ahereford.org/symposium](http://www.ahereford.org/symposium)

Join us for an ongoing, online conversation on emergent Religious Life.  
The interdisciplinary conversation will be global/online and local/face-to-face.  
In partnership with Giving Voice.

Four online events in 2012, each convened on a Sunday afternoon and lasting about 90 minutes. Presenters, responders, and participants can participate from their computers, either individually, or in group settings. Small groups can gather in community rooms to participate, others can gather in larger group settings. These groups can then continue the conversation locally and share their insights in an online forum.
